

Want In On The Action?

**6TH ANNUAL NATIONAL MARKET TRANSFORMATION CONFERENCE:
Friday Morning at the Conference:**

Friday morning's lineup starts in the Exhibit Hall with the breakfast panel for "How to Achieve Success" and moves into the main conference room for the "Emerging Technologies" session and is followed by the Government Affairs panel before the mid-morning networking break.

Our mid-morning sessions begin after the break with a panel discussion focusing on the savings guarantee. The "G(ESPC) is for Guarantee" panel is moderated by the ESC State Liaison team member, Dale Hahs. Panelists include Karen Pelzer (All American Investment Group) and Tony DePrima (Delaware Sustainable Energy Utility).

The morning concludes with "What Success Looks Like" as ESCOs and end-users share their innovative projects that resulted from a guaranteed energy savings performance contract. Mary Blackmon (Alabama Department of Economic and Community Affairs) moderates. Dan Addink (McKinstry) and Mark Korinek (Carson City School District) share the Carson City School project experience. The third panelist is Lenny Byrd (Ameresco) presenting on the Tucson Streetlight Project.

There is still time to register but attendance is limited – so [register](#) soon! See ya'll in Henderson
